

W·A·Y PROGRAM™

Widening Advancements for Youth

12/17/2020

Dear Parents and Community Members:

We are pleased to present you with the Annual Education Report (AER) which provides key information on the 2019-20 educational progress for the Way Academy Flint site. The AER addresses the complex reporting information required by federal and state laws. The school's report contains information about student assessment, accountability, and teacher quality. If you have any questions about the AER, please contact Shelly Smith for assistance.

The AER is available for you to review electronically by visiting the following web site <http://bit.ly/2H65kz0> or you may review a copy in the main office at your child's school.

For the 2019-20 school year, schools were identified using definitions and labels as required in the Every Student Succeeds Act (ESSA). A Targeted Support and Improvement (TSI) school is one that has at least one underperforming student subgroup. An Additional Targeted Support (ATS) school is one that has a student subgroup performing at the same level as the lowest 5% of all schools in the state. A Comprehensive Support and Improvement (CSI) school is one whose performance is in the lowest 5% of all schools in the state or has a graduation rate at or below 67%. Some schools are not identified with any of these labels. In these cases, no label is given.

Our school has not been given one of these labels.

SAT	2019-2020 Average Proficient Math	2018-2019 Average Proficient Math	2019-2020 Average Proficient ELA	2018-2019 Average Proficient ELA
State of Michigan	NA	36.3%	NA	55.3%
WAY Academy Flint	NA	13%	NA	20%

WAY Academy Flint was unable to participate in the required assessments during the 2019-20 school year due to COVID-19. During the 2018-19 school year, WAY Academy Flint participated in the state required assessments. SAT is the culmination of the pre-testing called PSAT taking in 8-10th grade. Our goal for all students is to perform at least at a proficient level. We have a lot of work to do to close the achievement gaps of our students. We continue to use a new program called Flocabulary that was implemented in January of 2020. The reading specialist is working with the entire staff to help with reading across the curriculum. Math continues to be a struggle. We continue to use the math program called ALEK math to increase math skills. Additionally, we are working with our math teacher to implement new strategies.

We now provide progress monitoring throughout the year with the use of the performance series assessments in both ELA and Math. We are also providing one-on-one and small group tutoring for additional support in these areas. Some of the goals and focus for the 2019-20 school year includes the further implementation of the Restorative Justice practices, Positive Behaviors Interventions and Supports through our work with the MIBLSI state initiative, the continued use of critical thinking skills, increased positive teacher/student relationships, an increased use of skills, and strategies to improve student engagement, and the use of data to impact differentiated instruction.

Performance Series Test	Spring 2019	Winter 2020	Fall 2020
Mathematics Proficiency	18%	17%	10%
Reading Proficiency	22%	21%	24%

Our process for assigning pupils to our school includes enrolling students as walk-ins, via our online school website <https://www.wayprogram.net/enroll>, recommendations from neighboring schools, flyers posted in the community and canvassing the surrounding neighborhoods. WAY is open to all students in the state of Michigan and provides a safe and supportive non-traditional educational setting for students to feel confident as they work their way to academic excellence. Once the student is enrolled they participate in an orientation process where a staff member guides them through our program and how to successfully complete work on the using our learning platform and model through an induction process.

In the 3-5 year School Improvement Plan for WAY Academy Flint, the updates regarding areas identified for improvement include the implementation of Collins Writing. We are also utilizing the math intervention tool ALEK math in conjunction with our Title 1 math program.

Over the course of the 2019-20 school year, 100% or 90 families of WAY Academy Flint participated in parent-teacher communications. Additionally, we had 100% or 97 families participate in parent-teacher communications for the 2018-19 school year. All parents were given access to our parent portal to view student academic progress and attendance. In 2019-20 the staff engaged in a positive phone call campaign weekly. We continue to look for improvement as it pertains to parent involvement. To address this area, parent virtual and in-person events are scheduled on a monthly basis to engage parents as stakeholders to get actively involved and acquainted with our program. Also, based on the requirements of the Michigan Department of Education, the School Improvement Plan is revised on an annual basis by staff members, parents/guardians and student input. The staff is engaged in more home visits as well.

Another area of improvement being addressed is college readiness. We are currently implementing workshops, implementing college pathways plan to prepare students for college entrance and success.

Our curriculum can be accessed on our school website at www.wayprogram.net The curriculum is based on the Common Core State Standards, Next Generation Sunshine State Standards and Michigan Curriculum Framework standards. Project-Based Learning is the vehicle through which students deeply explore concepts and skills embedded in the standards towards accumulating course credit. Projects are designed by Highly-Qualified teachers that encompass all of the state and national standards. In addition to these projects, students have the ability to co-create standards focused projects in collaboration with teachers. Constructivist learning is the foundation for all work that students do, and how teachers co-create learning experiences. We are AdvancED accredited: <http://www.advanc-ed.org>.

Currently, 100% at WAY Academy participate in parent-teacher communications over the course of the school year. All of our parents at WAY Academy have access to our parent portal to view student progress with completing standards, credits attained and attendance history. Parents are able to send comments to teachers and set up meetings with their teacher and/ or school leader at WAY Academy. On-going conferences and home visits are conducted to re-engage students. Currently, we actively communicate with parents via progress reports mailed out, conference calls and zoom meetings. Ultimately, we believe that involving parents in their student's education will improve the probability of a higher academic outcome. Our school works best when parents demonstrate an active interest in their child's education forming a partnership of academic success along with the teacher. Our virtual parent-teacher events have a 1% to 18% participation on a monthly basis.

W-A-Y Academy Flint had two Advance Placement and no International Baccalaureate courses. No student participated in the AP courses. We had zero students dual enrolled for the 2019-2020 school year. W-A-Y Academy Flint is committed to providing an outstanding educational program for all our students. Our staff is working to make learning personal and we are celebrating individual success everyday. We strive to ensure quality instructional support is given to our students as they work towards high school success and prepare for achievements throughout college, career and life. We look forward to continually improve our services and provide a premier education to ignite and brighten our youth in Flint .

Sincerely,

Shelly Smith
School Director
